

Job description:

Want to work for a company whose goal is not just 'do the work', but to be remembered by our customers for truly helping?

At Nu-Tek Electric, our priority is our customers - from a friendly greeting to final results they love. We go out of our way to help and take initiative to offer and install the best electrical solutions, so we can say our motto with integrity... *We'll Light Up Your Smile!*

As a member of our team, you'll work with a variety of types of projects, including:

- Residential and commercial service work,
- New design build homes,
- New commercial projects,
- Kohler and Champion generator installations,
- Solar installations,
- EV charger installations,
- Fire alarm installations,
- And much more.

We are a growing electrical contracting company based in Alliston, Ontario (15 minutes southwest of Barrie) and **are seeking a candidate within a 30-minute vicinity of our office.**

Candidates must have great people skills and be fluent in the English language.

309A Licensed Electrician:

- Minimum of 3-5 years of licensed field experience.
- Highly skilled in residential installations and troubleshooting.
- Commercial experience is an added asset.
- License in good standing.
- Ability to read and interpret electrical drawings, schematics, and single-line diagrams.
- Valid safety training certifications such as WHMIS, working at heights, lockout/tagout, etc.
- Clean drivers' abstract and criminal record.
- Able to lift up to 50lbs.
- Able to work at heights.
- Willingness to work flexible hours, including evenings and weekends as required
- Must hold a valid class G driver's license and reliable transportation.

3rd, 4th or 5th term Apprentice:

- Must have completed hours of 6200-7200.
- Residential experience of installation, troubleshooting, and being able to utilize the electrical codebook relating to all items pertinent to residential installations.

- Ability to read and interpret electrical drawings, schematics, and single-line diagrams.
- Valid safety training certifications such as WHMIS, working at heights, lockout/tagout, etc.
- Clean drivers' abstract and criminal record.
- Able to lift up to 50lbs.
- Able to work at heights.
- Willingness to work flexible hours, including evenings and weekends as required
- Must hold a valid class G driver's license and reliable transportation.

Responsibilities:

- ***Excel at residential services and installations.***
- Install, maintain and repair electrical systems, components and equipment.
- Have a solid understanding of residential and commercial service work.
- Troubleshoot and diagnose electrical problems.
- Perform electrical installations and upgrades for new construction projects and renovations in the residential and commercial.
- Ensure that all work meets or exceeds the standards set out by the Electrical Safety Authority
- Work collaboratively with other team members and contractors to complete projects efficiently and safely.
- Maintain accurate records of all work completed
- Communicate effectively with clients, suppliers, and co-workers
- Follow all safety protocols and regulations

The successful candidate should demonstrate value through strong problem-solving abilities and deliver friendly, meticulous service that rises above. They should also be a good communicator and an ESA code compliant 309A electrician/apprentice.

Nu-Tek Electric offers a competitive salary, benefits package, incentives, and opportunities for career advancement.

If you meet the above qualifications and are interested in this exciting opportunity, please submit your resume and cover letter on our website - <https://nu-tekelectric.ca/about-us/job-postings/> - today.

Nu-Tek Electric wants to be the best electrical solution provider for our customers. If your work and attitude can help us do that, we hope you will apply!

Work Remotely: No

Job Types: Full-time, Permanent

Benefits: Available, to be discussed during the interview process
